DryWon nose spray in case of dry nose

Dry nose can cause serious discomfort - including itchy, irritated nasal passages.

Many reasons for dry nasal mucous membranes:

Dry and overheated housing and office air, dry winter air, air conditioning systems, dry climates, age-related nasal dehydration, nasal or surgery, use of decongestants or other medications, airplane travel.

But also pollen and house dust can lead to dehydration and irritation of the nasal mucosa.

- > DryWon is especially suitable and indicated to use in case of dry nasal mucous membranes or sensitive nasal mucosa.
- > DryWon contains herbal & essential oils with vitamin E
- > The special slightly oily composition of DryWon **guarantees a much longer moistening effect than salt water based nasal sprays** – up to 9 times longer effect!
